

JOHN DOE

Product Designer & Frontend Engineer

Austin, TX · johndoe@example.com · johndoe.com · github.com/johndoe · [linkedin.com/in/johndoe](https://www.linkedin.com/in/johndoe)

BIO

Product designer and frontend engineer focused on creating thoughtful, accessible digital experiences. I work across product strategy, interaction design, visual design, prototyping, and frontend development, with an emphasis on simple interfaces and well-crafted details.

EXPERIENCE

PRODUCT DESIGNER & FRONTEND ENGINEER

Studio Co. · Austin, TX · 2024–Present

- Design and build digital products for businesses and internal teams.
- Translate complex workflows into clear interfaces, prototypes, and reusable components.
- Collaborate with engineers to carry design decisions through implementation.
- Develop responsive interfaces using modern frontend technologies.

PRODUCT DESIGNER

Northstar Digital · Austin, TX · 2022–2024

- Designed dashboards, customer portals, and workflow tools for web applications.
- Created responsive prototypes and contributed to a shared design system.
- Worked with product and engineering teams to identify and improve areas of user friction.
- Conducted user research and incorporated feedback into product decisions.

WEB DESIGNER

Independent · 2020–2022

- Designed and launched websites for small businesses, nonprofits, and creative organizations.
- Developed lightweight websites using HTML, CSS, and JavaScript.
- Created visual identities, marketing materials, and digital assets to support client projects.
- Managed projects from initial concept through launch.

SELECTED PROJECTS

STUDIO OS

Internal operations platform that replaced disconnected spreadsheets and manual workflows with a unified digital workspace.

NORTHWIND ATLAS

Live routing dashboard designed to make complex location and scheduling data easier to understand at a glance.

FIELDNOTE

Minimal note-taking application designed for researchers working in environments with unreliable internet access.

SKILLS

Design

Product Design · Interaction Design · Visual Design · Prototyping · Design Systems · Information Architecture

Development

HTML · CSS · JavaScript · TypeScript · React · Astro · Node.js

Tools

Figma · Git · GitHub · VS Code · Adobe Creative Cloud

EDUCATION

BFA, Software Engineering

Generic State University · 2020

ADDITIONAL

Open-source contributor · Independent projects · Writing & documentation
